A CLEANING PRODUCT FOR EVERY MACHINE

CAFETTO.COM

WHY ORGANIC CLEANING PRODUCTS?

DO YOU USE ORGANIC COFFEE?

Are you concerned about using GMO products and phosphates?

The Cafetto® Organic Range is the best choice for customers who are looking for an alternative to traditional espresso machine cleaners.

Using a cleaning product that is certified for organic use, means that if you're using organic coffee beans and milk, you're upholding an end-to-end organic experience for your customers.

The Cafetto® Organic Range is free from :

- ✗ Genetically Modified Organisms
- ✗ Phosphates
- ✗ Corrosive chemicals
- ✗ Chlorine and quaternary sanitisers

EVO®

- The safe, high performance cleaner for professional espresso machines.
- Completely soluble and free-rinsing, leaving no trace of odour.
- The world's first espresso machine cleaner recognised by independent authorities as suitable for cleaning espresso machines used with certified organic coffees.
- Rapidly biodegradable.
- Available in 125g, 500g and 1kg jars.

NSF Protocol P152
Health Effects and Corrosivity
of Commercial Espresso
Machine Chemical Cleaners

INDEPENDENTLY CERTIFIED

NSF®

NSF A3, A1 White Book Nonfood Compounds and International Protocol P152. NSF (National Sanitation Foundation) International Protocol P152 relates to espresso machine cleaners that have been evaluated, tested, and passed NSF's stringent toxicology and corrosivity standards. The ingredients and formulation of the products that are NSF certified are safe, leave no harmful residues and do not cause corrosion within the coffee machine.

BFA Registered

All Cafetto® products marked with the BFA logo have been registered by the Biological Farmers of Australia and are approved for use in organic systems.

OMRI™ Listed

All Cafetto® products marked with the OMRI™ logo have been listed with the Organic Materials Review Institute as complying with the requirements of the National Organic Program.

ORGANIC RANGE
